WHY WE'RE MORE THAN JUST A NETWORK

1. Although we are expanding, we understand that each community has its own needs. We approach our network at the local level, bringing together community organizations of all kinds to meet the unique needs of each area we serve.
2. You already have plenty on your plate. That's why we're here to do the hard work for you. If a community member has a social need, send them our way and we'll connect them to an organization who is ready and willing to help.
3. By joining our network, you are creating another entry point for community members to access services that are necessary for a healthy life.
4. Improving health isn't done alone. Our network is filled with other like minded organizations who share similar experiences to you. Collaboration and communication is encouraged!
